DETAILED ACTION

Allowable Subject Matter

Claims 2 – 6, 13, 19 – 20, 22 and 24 – 25 are allowed.

The following is an examiner's statement of reasons for allowance: As to claims 2 – 6, 13, 19 – 20, 22 and 24 – 25, the prior art fails to show a magnetic flux reducing means for passing therethrough only a part of the magnetic fluxes generated by the magnet thereby to reduce the magnetic fluxes passing through the magnetism sensing element only when the relative turning angle between the magnetic flux generating means and the magnetism sensing element is within a predetermined range of turning angles, which predetermined range is less than a full range of relative turning angles. These features taken together with the other limitations of the claim renders the claims allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
